## SUMMARY

Computer Engineering graduate (2026) and Full Stack Java Developer with a strong foundation in programming fundamentals, Object-Oriented Programming, Data Structures and database concepts. Hands-on experience developing, testing, debugging and maintaining Java and Spring Boot applications, writing SQL queries and managing MySQL databases, and building React.js front ends integrated through REST APIs. Completed a software development internship and Full Stack Java training, and have delivered multiple deployed projects following coding standards and the software development lifecycle. Analytical problem solver and clear communicator, eager to collaborate with technical teams and grow in enterprise software development.

## TECHNICAL SKILLS

**Languages:** Java, Core Java, SQL, JavaScript, XML
**Backend:** Spring Boot, Spring Security, RESTful APIs, API Integration, CRUD Operations
**Frontend:** React.js, Redux Toolkit, Axios, Responsive UI Design
**Database:** MySQL, SQL Queries, Database Management, Relational Database Concepts
**Tools & Deployment:** Git, GitHub, Vercel, Render
**Mobile:** Android Development (Java, XML)
**Concepts:** Programming Fundamentals, OOP, Data Structures, SDLC, Agile Methodology, Debugging and Troubleshooting

## EXPERIENCE

**Software Development Intern** *June 2026*
*Linkcode Pvt. Ltd*

- Contributed to a team software project building RESTful APIs and Java-based components in a real-world environment.
- Applied Core Java, coding standards and software engineering best practices, including API integration and CRUD operations with database-backed services.
- Debugged and resolved application issues while working in an Agile workflow and meeting project delivery timelines.
- Collaborated closely with team members to understand requirements and deliver solutions.

## PROJECTS

**Full-Stack E-Commerce Application** *Live Demo*
*Java, Spring Boot, React.js, Redux Toolkit, MySQL, REST APIs, Axios, Git, GitHub, Vercel, Render*

- Developed a full-stack e-commerce application with a React frontend and Java Spring Boot backend, integrating REST APIs for product data.
- Implemented centralized product state management using Redux Toolkit to manage product data and asynchronous API requests.
- Integrated a MySQL database to persist application data and configured a cloud-hosted database for deployment.
- Deployed the frontend on Vercel and the backend on Render, configuring API connectivity and cross-origin resource sharing (CORS).

**BlogSpace – Full-Stack Blog Management Website** *Backend* | *Frontend*
*Java, Spring Boot, React.js, REST APIs, Spring Security, Git, GitHub*

- Developed a full-stack blog application with a React frontend and a Spring Boot backend.
- Designed and integrated REST API endpoints to support communication between the frontend and backend.
- Implemented authentication and application security using Spring Security with CSRF protection.
- Configured frontend-backend integration and investigated authentication and cross-origin request issues during deployment, troubleshooting API connectivity and security configuration.

**Task Manager – Full-Stack Web Application** *Live Demo*
*Java, Spring Boot, React.js, REST APIs, MySQL, JavaScript, Git, GitHub*

- Developed a full-stack task management application using React.js for the frontend and Spring Boot for backend services.
- Implemented REST API endpoints to create, retrieve, update and delete tasks (CRUD operations).
- Integrated the frontend with backend APIs to manage task data; configured database connectivity and tested CRUD operations across the application layers.

**Brightmind – Interactive Learning App for Children** *GitHub*

*Java, Android, XML*

- Developed an interactive Android learning app using Java and XML.
- Implemented voice guidance, visual learning content and scanning functionality to increase engagement.
- Applied Java and OOP concepts to build maintainable application features.

## EDUCATION

**Bachelor of Engineering (B.E.) – Computer Engineering** *2023 – 2026*

Mumbai University, Mumbai, India | SGPA: 8.43

**Diploma in Engineering** *2020 – 2022*

MIT Polytechnic, Yeola, India | Percentage: 74.40%

**Higher Secondary Certificate (H.S.C.)** *2019*

CBSE Board, India | Percentage: 68.00%

## TRAINING / COURSES / CERTIFICATES

- Java Full Stack Development Course – LinkCode Technology
- Research Paper Published, International Journal of Engineering Development and Research
- Paper Presented, International Conference on Emerging Technologies and Pharmaceutical Research (ICETPR 2026)
- Research Paper Published, International Journal of Innovative Research in Science, Engineering and Technology (IJIRSET)

## LANGUAGES

English, Marathi, Hindi
